

Birth Through Five Literacy Plan

The Department of Early Learning and Care is creating a Birth Through Five Literacy Plan. DELC is working with Oregon's Kitchen Table to hear what people would like to see included in the plan. Your input will help the state make decisions about ways to support families and children ages birth through five to develop language, early writing, and listening skills.

What could help you as you support families and children ages birth through five with early literacy programs and activities?
